

BETTER BUILT, LONGER LASTING

14-gauge door panel, 20-gauge liner

Quiet-close feature

Single-point latch

VERSATILITY IN ONE DESIGN.

Ideal for heavy duty use in schools, locker rooms, industrial environments, government, sports facilities, educational, commercial and mining industries.

Available in many custom color powder-coated finishes. Purchase assembled, knocked down or fully-welded bodies.

ELITE LOCKERS

Meet the new standard for corridor lockers.

The Elite series of lockers raises the bar for corridor locker strength and durability. The increased thickness of steel throughout the entire locker allows Elite to surpass every competitor's standard locker offering.
